

The Aikido Academy of North Carolina

JAPAN AID SEMINAR

The recent, tragic events in Japan have been heartbreaking for all who have seen the coverage on television. This seems especially true for those of us in the martial art community, considering our personal and cultural ties to the nation of Japan.

In an effort to help provide financial aid to Japan, a large part of the proceeds from this upcoming seminar will be channeled to that nation through the Aikido International Foundation, which is the not-for-profit affiliate of the Aikido Association of America. A.I.F. will be sending 100% of designated donations to the Save the Children's Japan Fund. Also, some matching of funds is available, which could result in a 200% donation to the charity.

If you have also felt the need to help the Japanese people in these trying times, your participation in this seminar will help to provide means to that end.

Thank you in advance for your compassion and participation.

William J. Bunn, jr.
Chief Instructor, DojoCho
